

OPERATOR OF OWN RAILWAY
CARRIERS FOR TIMBER AND
GRAIN CARGOES
TRANSPORTATION

FOR THE COUNTRY
WHICH IS AWAKE

THEY TRUST US:

MORE THAN 1.56 MILLION TONNES
GRAIN AND BULKY GOODS WERE CARRIED IN 2017

ПРОДИМЕКС

IN 2017, THE WOOD CARGO TRAFFIC
ACCOUNTED FOR **MORE THAN 2 MILLION**
CUBIC METERS

Ecoline owns
a 49% stake in Levan

ABOUT ECOLINE

The head office of the company is located in Moscow. Ecoline Ltd. is a professional participant in the railway transportation market in **Russia, China, Finland, CIS and Baltic countries.**

To date, the company owns more than **5,000 modern grain trucks and timber trucks** whose age does not exceed 6 years.

We work directly and offer a full range of services for transportation of timber and grain cargo in our own specialized wagons throughout the 1,520 gauge space.

All transportations are carried out through any border crossing with registration of all necessary railway payments.

WE GUARANTEE:

- Provision of our own and modern wagons for loading;
- Forwarding services;
- Organized dispatch control of wagon movement;
- Settlements with Russian Railways, its structural divisions and administrations of roads of neighbouring states.

Ecoline is a simple and correct solution for any logistics task of any complexity!

ECOLINE DEVELOPMENT:

1. The increase in the volume of transported goods to 4 million tons per year due to the intensive expansion of the client base and the increase of the fleet in the company operations management;
2. Effective use of innovative and the most popular specialized fleet of grain hopper cars and log flat cars;
3. The key factor of competitiveness and customer loyalty is operating modern rolling stock according to the strategic development program of the company for 2018-2019;
4. Achieving the position of the leading operator of a specialized fleet of rail transportation in Russia and the neighbouring countries.

ROLLING STOCK

ECOLINE **owns** the specialized rolling stock. At present, the company manages:

2 900 LOG FLAT
CARS

2 500 GRAIN HOPPER
CARS

Years of cars construction - 2013-2018.

During 2018, the operational fleet is expected to increase by 500 grain hopper cars and 500 log flat cars.

+ 1000 UNITS

19 6870

ZMK's
grain hopper car

The model features: the increased cubic capacity and the increased load capacity.

BVRZ's 19 9950
grain hopper car

The model feature: the grain hopper car body does not provide expensive rolled metal profiles significantly improving the model maintainability and making it one of the most practical ones in its segment.

ZMK's
grain hopper car

19 9858

ZMK's grain hopper car **19 6869**

The model feature: the increased cubic capacity.

BMZ's grain hopper car 19 3054 04

ZMK's
log flat car **13 9997**

The model feature: optimal specifications
and growing demand make it one of
the most top requested in its segment.

Altaivagon's
timber truck 13 2114 07

The model feature:
12 removable racks and end walls.

Transmash's
timber truck

13 9744 02

The model features: the platform with
12 removable racks, 2 end
walls and 8 fitting stops.

In 2018-2019 Ecoline plans to reach **40%** of the total market share of timber and sawn timber by rail road. Also, the main task is to expand a specialized fleet of logging platforms up to **3,500** units and consolidation in the second place in terms of timber cargo traffic volumes from Siberia to China.

RVRZ's timber truck **13 9924 01**

GRAIN HOPPER CARS
